

# God-Damned NaZio-Devilluminatists are about to Make a Decisive Move (2020)

Based upon **The Story Behind The Creature From Jekyll Island** by G. Edward Griffin *and* **Secrets of the Federal Reserve** by Eustace Mullins.

Also see: <https://www.youtube.com/watch?v=VOm7jLxOOLo>

A vital element in keeping the peace is our military establishment. Our arms must be mighty, ready for instant action, so that no potential aggressor may be tempted to risk his own destruction. Our military organization today bears little relation to that known by any of my predecessors in peacetime, or indeed by the fighting men of World War II or Korea. Until the latest of our world conflicts, the United States had no armaments industry. American makers of plowshares could, with time and as required, make swords as well. But now we can no longer risk emergency improvisation of national defense; we have been compelled to create a permanent armaments industry of vast proportions. Added to this, three and a half million men and women are directly engaged in the defense establishment. We annually spend on military security more than the net income of all United States corporations. This conjunction of an immense military establishment and a large arms industry is new in the American experience. The total influence—economic, political, even spiritual—is felt in every city, every State house, every office of the Federal government. We recognize the imperative need for this development. Yet we must not fail to comprehend its grave implications. Our toil, resources and livelihood are all involved; so is the very structure of our society. In the councils of government, we must guard against the acquisition of unwarranted influence, whether sought or unsought, by the military-industrial complex. The potential for the disastrous rise of misplaced power exists and will persist. We must never let the weight of this combination endanger our liberties or democratic processes. We should take nothing for granted. Only an alert and knowledgeable

citizenry can compel the proper meshing of the huge industrial and military machinery of defense with our peaceful methods and goals, so that security and liberty may prosper together. Akin to, and largely responsible for the sweeping changes in our industrial-military posture, has been the technological revolution during recent decades. In this revolution, research has become central; it also becomes more formalized, complex, and costly. A steadily increasing share is conducted for, by, or at the direction of, the Federal government. Today, the solitary inventor, tinkering in his shop, has been overshadowed by task forces of scientists in laboratories and testing fields. In the same fashion, the free university, historically the fountainhead of free ideas and scientific discovery, has experienced a revolution in the conduct of research. Partly because of the huge costs involved, a government contract becomes virtually a substitute for intellectual curiosity. For every old blackboard there are now hundreds of new electronic computers. The prospect of domination of the nation's scholars by Federal employment, project allocations, and the power of money is ever present and is gravely to be regarded. Yet, in holding scientific research and discovery in respect, as we should, we must also be alert to the equal and opposite danger that public policy could itself become the captive of a scientific technological elite. It is the task of statesmanship to mold, to balance, and to integrate these and other forces, new and old, within the principles of our democratic system—ever aiming toward the supreme goals of our free society.

Another factor in maintaining balance involves the element of time. As we peer into society's future, we—

you and I, and our government—must avoid the impulse to live only for today, plundering, for our own ease and convenience, the precious resources of tomorrow. We cannot mortgage the material assets of our grandchildren without risking the loss also of their political and spiritual heritage. We want democracy to survive for all generations to come, not to become the insolvent phantom of tomorrow.

Down the long lane of the history yet to be written America knows that this world of ours, ever growing smaller, must avoid becoming a community of dreadful fear and hate, and be instead, a proud confederation of mutual trust and respect. Such a confederation must be one of equals. The weakest must come to the conference table with the same confidence as do we, protected as we are by our moral, economic, and military strength. That table, though scarred by many past frustrations, cannot be abandoned for the certain agony of the battlefield. Disarmament, with mutual honor and confidence, is a continuing imperative. Together we must learn how to compose differences, not with arms, but with intellect and decent purpose. Because this need is so sharp and apparent I confess that I lay down my official responsibilities in this field with a definite sense of disappointment. As one who has witnessed the horror and the lingering sadness of war—as one who knows that another war could utterly destroy this civilization which has been so slowly and painfully built over thousands of years—I wish I could say tonight that a lasting peace is in sight.

**US President Dwight D. Eisenhower,**  
Public Papers of the Presidents, Dwight D. Eisenhower, 1960, p. 1035- 1040

## Part Two

### “Quis custodiet ipsos custodes?” (“Who will watch the watchmen?”)

Roman poet **Juvenal**

On the second anniversary of the 9-11 World Trade Center Rockefeller-orchestrated “**Directed Energy Weapon (DEW)**” <sup>1</sup>

<sup>1</sup> For 40 years, **Lockheed Martin** (NYSE: LMT) *global security and aerospace company* has researched, designed, and tested critical needs such as accuracy, mobility, size, weight and power (SWaP), cooling, and minimal collateral damage, developing captured electromagnetic energy and elevating its power to create *innovative directed energy laser weapon systems, radio frequency and other directed high-energy technologies* for air, ground and sea platforms... *especially* advanced beam control, fiber-based spectral beam combining, specialized sensors, and system integration, including a 30kW **ALADIN/ATHENA (Advanced Test High Energy Asset) systems** supplemented by current programs such as the **DE RELI/HEL-MD** program (a 60 kW-class beam combined fiber laser, meaning it brings together individual lasers, generated through fiber optics, to generate a single, intense laser beam) developed under the **Department of Defense's Robust Electric Laser Initiative Program for the US Army**. Using a system of sensors, software and specialized optics they have created the most advanced laser-based threat adaptable countermeasure devices to counter all types of surface-to-air and air-to-air EO/IR threats—light-weight, low volume and reliable enough to be deployed on tactical vehicles for defensive applications capable of delivering decisive lethality against any target on land, at sea and in the air—leveraging over 30 years of EO/IRCM development and test experience.

The **US Navy** awarded Lockheed Martin a \$150 million contract, with options worth up to \$942.8 million, for the development, manufacture and delivery of two high power laser weapon systems, including *intelligence, surveillance and reconnaissance (ISR)* and *counter-Unmanned Aerial System (counter-UAS) capabilities*, by fiscal year 2020. With the **High Energy Laser and Integrated Optical-dazzler with Surveillance (HELIOS) system**—the first of its kind—bringing together laser weapons, long-range ISR and counter-UAS capabilities. HELIOS combines three key capabilities, brought together for the first time in one weapon system: a high-energy laser system, long-range ISR capability and counter-UAS dazzler capability.

The **Air Force Research Lab (AFRL)** awarded Lockheed Martin \$26.3 million for the design, development and production of a compact, high-efficiency high-power fiber protective airborne laser as part of AFRL's **Self-protect High Energy Laser Demonstrator (SHIELD) program**. The SHIELD program includes three subsystems: 1) **SHIELD Turret Research in Aero Effects (STRAFE)**; 2), the beam control system, which will direct the laser onto the target; **Laser Pod Research & Development (LPRD)**, the pod mounted on the tactical fighter jet, which will power and cool the laser; and, 3) **Laser Advancements for Next-generation Compact Environments (LANCE)**, the high energy laser itself, which can be trained on adversary targets to disable them. [**Hypersonic flight** is defined as *anything above Mach 5*, meaning *five times the speed of sound* or *3600 miles per hour*: (*To put it into perspective, a jet flying at hypersonic speeds could cross the continental United States in about half an hour*). Although it is extremely difficult to reach and maintain such speeds due to extreme temperatures and thermal loadings, the US has had the ability to build *boost glide and boost cruise weapons* for six decades. **NASA's X-15** effort in the 1960s was able to achieve speeds of Mach 5, and in 2013 the **Air Force's X-51 Waverider air vehicle**, launched from a B-52 bomber, reached Mach 5.1 at 60,000 feet. Developing a hypersonic weapon was expensive and technologically challenging; however, as adversaries like Russia and China have developed surface-to-air missiles and anti-aircraft weapons designed to foil US forces' ability to penetrate, **Pentagon** leaders pushed hypersonics as a means to counter this “anti-access area denial,” or A2/AD, environment—also solving the distance problem of an A2/AD environment... as *a Mach 5 weapon could be launched outside the “threat rings” of modern SAMs and fighter*

terror-fiasco, **George Bush** asked for an 87 billion dollar increase in military spending at the same time the media released a dramatic video showing **Osama bin Laden** alive and well and threatening to make the 9-1-1 attack seem like foreplay. But how much do we really know about America's favorite villain?

Multi-millionaire Osama bin Laden was the 17<sup>th</sup> of 52 children fathered by a wealthy construction baron named **Mohammed bin Laden** (*q.v.*) who had close ties to the **Saudi royal family** and the **Bush family**.<sup>2</sup> In 1979, the **American CIA** and **Pakistan's ISI** financed an *anti-Soviet group in Afghanistan* and provoked a profitable *ten-year war with the Russians*. When the Russians invaded Afghanistan, the CIA hired **Osama bin Laden** (*q.v.*) to recruit and train *al-Qaeda fighters* to fight the Russian army. Every *communist guerrilla* in **Afghanistan** has been at the frontline fighting against the spread of communism—but what was

*aircraft* and still reach targets in time—including new thermal protection systems, innovative aerodynamic shapes, navigation guidance and control improvements, and long-range communication capabilities.]

The rapid advancement of *artificial intelligence* is changing the battle landscape. Decision makers must be able to collect, collate, sift, analyze and share vast amounts of information. The ability to analyze, adapt and respond to threats at tactical speeds can mean the difference between success and failure. The shift from descriptive to **AI predictive analytics** drives better decisions. The point is unlocking insights from data by predicting what will happen, to deter threats and automate dangerous tasks. Ultimately, predictive analytics mean lower costs and fewer mistakes.

<sup>2</sup> Newly discovered diary entries by notorious **Satanist “The Great Beast 666” Aleister Crowley**, “**The Wickedest Man in the World,**” reveals he was *the true father of Barbara Bush*, daughter of **Pauline Pierce Robinson** (wife of **Marvin Pierce**, president of the **McCall Corporation**, which published **McCall's magazine** and **Redbook**, who married the beautiful young socialite in 1919: *A first child, Martha, was born the next year; a second, James, was born in 1921*). Rumors that **Pauline Pierce** had an affair with “**Rheinwiesenlager death camp**” war-criminal **US 5-Star General Dwight D. Eisenhower** have never been verified. Pauline had befriended an American adventuress named **Nellie O'Hara**, who, at some point during her European travels, met the famed writer **Frank Harris**, owner of the newspaper, **The Evening Telegram**. Despite his advancing years, Harris still maintained *a reputation for sexual excess that rivaled Crowley's*. During this period (1919-1927), Nellie and Frank Harris lived as man and wife, although they could not actually wed because Harris' second wife was still alive and would not grant a divorce. Crowley's diaries clearly indicate that he depended on Harris for financial assistance.

**Pauline scandalized her social circle** by traveling to France on her own and leaving two very young children in the care of nursemaids. Her husband, increasingly bound to his duties with the McCall Corporation, did not share her *wanderlust spirit of adventure*. Pauline returned to America in early October of 1924... and, on 8 June 1925, she gave birth to **Barbara Pierce**, who married **George H.W. Bush**, who *eventually* became the 41<sup>st</sup> President of the United States. The chronology indicates that her father could have been Crowley, but it could just as easily have been Marvin Pierce; however, more than one person has noted the resemblance—which is not just physical! Many will recall the *former First Lady's racist remarks* in the aftermath of the **Katrina disaster**—telling media *that* the “underprivileged” victims should be grateful for being displaced to **Houston Astrodome**—showcasing her indifference to *people of Hispanic origin and the plight of Black women's quest for legitimacy in the eyes of White America*. Notwithstanding, she expressed doubt over claims that **Clarence Thomas** had sexually harassed **Anita Hill**—calling Thomas “a good man” whose reputation had been wrongfully “smeared.” Note: In 1991, President George H.W. Bush nominated Thomas, a federal Circuit Judge, to succeed retiring Associate Supreme Court Justice **Thurgood Marshall**.

the fight really all about? It was about **poppies!** endless fields of **opium poppies** that provide over **70% of the world’s heroin supply** to heroin addicts worldwide.

Without a doubt, a very uncomfortable issue for politicians! It is a dramatic story... but don’t expect the mainstream mass media to tell us the true story... this less than heroic story of Afghanistan’s freedom fighters and **American troops protecting these poppy fields and the heroin they produce.** Moreover, America’s new friends have become hooked on **the economics of the poppy** and many of the **Mujahideen** radically increased the **production of opium**—the raw ingredient of opiod-abuse around the world—and in our civilized Western Europid nations... its at epidemic levels. This is probably the worst drug situation in decades... if not a century! with deaths more than quadrupling between 1999 and 2015.

The **international drug trade** began in 1606 when **Queen Elizabeth I** built England’s wealth by trafficking illegal opium from India to **China** via the **British East India shipping company**—financed by such men as **John Jacob Astor**,<sup>3</sup> and **Warren Delano** father of **“atomic bomb” war-criminal President Franklin Delano Roosevelt**—who profited handsomely, not just from drugs but from trafficking **African slaves, as well.**<sup>4</sup> But, by 1830,

<sup>3</sup> Astor’s enormous fortune was made importing **Chinese tea and silks...** and by **smuggling opium** into China against imperial orders. **Opium** was technically banned in China, but merchants like Astor bribed officials to look the other way instead of enforcing **anti-opium laws.** The resulting riches from this **lucrative illicit cargo of premium opium** from India and Turkish **“black dirt”** opium made him one of the world’s most powerful merchants—and, in satisfying an international craving that would reach epidemic proportions during the 19<sup>th</sup> century, *also* helping create the **world’s first widespread opiod epidemic. Opium smoking and injection of opium derivatives** like **morphine** created **hardcore drug users in England and the United States,** but the main toll of opium use in the West was felt among **casual users who started using opium under doctor’s orders.** Opium use was **socially acceptable and medically approved** in some forms, and could be found in **patent medicines prescribed for everything from pain to depression.**

**Astor**, among the richest people in the world at that time, with a net worth of nearly \$87 to 500 million (adjusting for inflation equivalent to \$2.26 to 11 billion in 2018), along with **Benjamin Guggenheim** and **Isador Strauss** (who gained his fortune as the head of **Macy’s Department Stores**).died in the sinking of **RMS Titanic**—on her “phony maiden voyage,” whereof it was torpedoed by a Holland-class submarine painted white and disguised as an iceberg, during the early hours of 15 April 1912. **William T. Stead** was the most prominent Briton to go down with the torpedoed Titanic; he was a fearless journalist and truth-teller—a precursor to Julian Assange—best known for **exposing child prostitution in London** in a series of articles in the **Pall Mall Gazette** entitled **“The Maiden Tribute of Modern Babylon.”**

In 1907, J. Bruce Ismay, Chairman of the **White Star Line** and Lord Pirrie Chairman of **Harland & Wolff shipbuilders** decided that in order to compete successfully in the transatlantic passenger market, luxurious ocean liners were the way forward. A total of three Olympic-class ships were planned: the **Olympic, Titanic and Gigantic** (later renamed **Britannic** after the sinking of *Titanic*).**Note: Without Nikola Tesla’s polyphase alternating current system,** the Twins (Olympia and Titanic) would be stillborn, and Britannia would never have the technology to misrule the waves! So, whilst **British spy Samuel Insull, Edison** and his boss **Morgan** sulked like spoilt children, and started the **War of the Currents,** or **the battles between AC and DC, George Westinghouse,** inventor of the locomotive air brake, brought Tesla’s polyphase AC system to the world. **Insull’s money** came from the **Bank of England**—he was the John D. Rockefeller of the electrical industry. *To the military establishment in the British Empire, it held out the possibility of an atomic bomb* to destroy Britannia’s three main rivals: France, Russia, and the United States.

**Olympia was deliberately rammed by a warship** named **HMS Hawke**; she was able to limp back to Southampton for temporary repairs, before returning to the Belfast dry dock. Once in the dry dock, under guise of being repaired, the holes in Olympic’s side were patched up and her name was changed to Titanic—until it hit the “iceberg” in the middle of the Atlantic (*q.v.*). The British desperately wanted a monopoly on AC because they realized that it would give them a quantitative industrial advantage over the United States. That is why they launched the **War of the Currents.**

When the **Titanic** was first built, major newspapers of the day—owned by financiers like **JP Morgan** as a *frontman* for the **Rothschilds,** who talked up the Titanic and heaped praise upon the ship; their promises of unrivaled extent and magnificence managed to attract many of the top movers and shakers of society, enticing them to buy tickets for the **exciting trans-Atlantic journey.** Conveniently, putting them all in one place. It is no coincidence that all of the millionaires on the Titanic were opposed to a set new plans set up by the **Jeckel Island tyrants** to create **a private central bank** in the United States, (*generally* because their finances would be negatively impacted). These three men, *in particular,* were encouraged and convinced to board the floating palace known as the **Titanic...** but, *in actuality,* the **Olympia.** The reason they had to be gathered together was that the **Jesuits** knew **these men were going to use their wealth and political influence to oppose the Federal Reserve Bank,** as well as **wars that they were planning.**

Historically, the **Rothschilds’ power and wealth** made them **the masters of Europe.** built on **usurious wealth** by starting **private, central, government-sanctioned banks** in England, France, Germany, Italy, and Austria. The **Titanic fiasco** was **actually intentionally created and orchestrated by a Rothschild-Rockefeller and Morgan cartel,** as well as other elite New World order families who *also* had a hand in funding, organizing, and carrying out the **American, French, and Russian Revolutions** which followed the tragedy. *These families were responsible for the attempted and successful assassinations of Andrew Jackson, Abraham Lincoln, MLK, and JFK; as well as the false flag sinking of the Lusitania in 1916, Pearl Harbor, and the Gulf of Tonkin Incident. All of which, of course, embroiled the United States in wars that the public would not have otherwise supported... lastly, World War I* was ignited less than one year later. *This is relevant because many of the forces behind the Federal Reserve were responsible for funding, and profiting off of, the United States, Germany, and Imperial Russia during the war.*

British Secret Service agent JP Morgan was the owner of the **White Star Line.** He was the commanding general in the **War of the Currents** that pitted **Tesla** and **Westinghouse** against **Thomas Edison** and **General Electric.** A ruthless financial privateer, Morgan took no prisoners. He had been scheduled to be on the voyage but canceled his trip at the last moment without explanation.

<sup>4</sup> **Jewish pilgrim fathers used kidnapped Black Africans disproportionately more than any other ethnic or religious group** in New World history and participated in every aspect of the international slave trade. Until now, the facts herein were known only to a few. Most have always assumed that the relationship between Blacks and Jews has been mutually

the British had distanced themselves from dope-dealing by granting **opium monopoly rights** to the **Jewish Sassoon family,** who became known as the **“Rothschilds of the Far East”** <sup>5</sup> and joined **the pirated fortunes of the Sassoon drug cartel** to the **Rothschild-Goldschmidt- Bischoffsheim money cartel** <sup>6</sup> —represented on the other side of the Atlantic by the opium smuggling syndicate as **Samuel Russell son of Capt. John Russell**

---

supportive, friendly and fruitful - two suffering people bonding to overcome hatred and bigotry to achieve success. But history tells an altogether different story.

Slavery in Spain can be traced to the times of the Greeks, Phoenicians and Romans. In the 9th century the Muslim Moorish rulers and local Jewish merchants traded in Spanish and Eastern European Christian slaves, and this trade reached its peak in the 16th century with the spread of Judeo-Moorish Barbary pirate African-and-Christian slave trade. In 1621, the Dutch East India Company—“the world’s first multinational corporation”—founded by Christian ship-owners of Amsterdam, the hub of a unique urban Jewish universe that anticipated Jewish emancipation in the West by over a century. Only two Portuguese Maranos (i.e. crypto-Jews) were registered amongst the original shareholders of the Company—Stephanus Cardoza and Elizabeth Pinto: However, as the influence and power of the Dutch East India Company grew, the Jews gradually bought up its shares, and by the end of the 17th century became the principal stockholders in Holland, controlling a quarter of its stock. These rich Jews the Dutch East India Company, the Dutch West India Company, the Portuguese company, and the Brazilian company, financed and monopolized the Black African slave trade.

It was not until 1655, however, that slavery for life became a legally sanctioned institution in the North American colonies. Ironically, in that year, Anthony Johnson, a free black Angolan who had been brought to Virginia as an indentured servant and who had worked off his term of indenture years earlier, went to court over the ownership of a black servant named John Casor, who Johnson claimed ownership of saying that Casor had been sold to him as his “slave for life.” Corroborating testimony in the case was provided by a Jewish merchant named Capt. Samuel Goldsmith, with the court deciding in Johnson’s favor, legally recognizing John Casor as his slave for life, setting the precedent for lifetime slave ownership in the colonies of North America; a peculiar institution that Jewish sea-faring merchants and traders soon found extremely profitable.

<sup>5</sup> Agent for The Crown, Sephardic Jew ☆ **David Sassoon**—a merchant and chief treasurer under **Ahmet Pasha, Governor of Baghdad,** who was instrumental in the founding of the **Imperial Bank of Persia** (until being implicated in a corruption scandal and fleeing to **Bombay**)—who enriched him by spreading the **illegal opium trade** throughout **China** and **Japan...** sharing his drug profits with **Queen Victoria.** The **British East India Company,** which had **a monopoly on opium (as with slaves),** built a **major opium factory at Gaza port**—still a lucrative earner for **the Indian government,** which **sells opiates to the world’s pharmaceutical industry.**

In 1839, When the devastated **Chinese banned opium,** the Manchu Emperor commissioned **Lin Tse-hsu** to campaign against the opium trade; he destroyed 600 chests loads of the addictive contraband—with huge profits at stake, the Sassoons demanded Britain retaliate against the financial disaster with the **Opium Wars,** initiated by **British Prime Minister Lord Palmerston.** The **First Opium War** (1840-42) was fought between England, a mercenary of the Jew Sassoon, and China. Cities were attacked and blockaded, but the Chinese army had been decimated by drug addiction—and the war ended with the signing of the **Treaty of Nanking,** which forced China to reimburse England for the costs of the war and granted Sassoon the right to enslave the whole population to opium - *and began a hundred years of national humiliation for the Manchurian Qing dynasty.* The **Second Opium War** (1856-60) - which the British won and made Sassoon the richest Jew in the world.

Thus, **Haskalic Great Britain** forced drug addiction onto an entire nation, stole the island of **Hong Kong** and made it **the capital of the British international drug trade.** In 1872 Queen Victoria knighted **Albert Abdullah David Sassoon** son of Iraqi Jew **David Sassoon,** a friend of the **Prince of Wales, later King Edward VII;** and, in 1887; **Sir Edward Albert Sassoon** (1856-1912) *son of Albert,* who married the socialite **Aline Caroline de Rothschild** daughter of **Cécile Anspach** and **Baron Gustave de Rothschild, grandson of Mayer Amschel Rothschild.**

To this day Jewry yet be involved in *both* the slave trade and the drug trade.

<sup>6</sup> **Henri Bamberger** son of **Raphaël Nathan Bischoffsheim,** army contractor of the **Electorate of Mainz,** banker, co-founder of **Banque de Paris et des Pays-Bas,** married to **Amalie von Hirsch,** sister of **Baron Moritz von Hirsch,** who was associated with the **banking house of Bischoffsheim & Goldschmidt, of Brussels, London and Paris;** his best known railway venture was the **Chemins de fer Orientaux (Orient Express),** a visionary railway project intended to link **Vienna**—a centre of high culture and of modernism and world capital of music—capital of the **Austro-Hungarian Empire,** to **Mohammadi Istanbul.** He *also* created the **Jewish Colonization Association (JCA) of London and New York**—an emigration and colonization scheme employing Canadian politicians **Clifford Sifton** and **Frank Oliver** of the **North Atlantic Trade Company (NATC)** in **an elaborate fraud** perpetrated by **corrupt officials, monopolizing immigration** from the Austro-Hungarian crown provinces of **Galicia** and **Bukovina**—leading to the **socialist dissolution of Christian nationalism** in all Western countries after World War I, and determining **British foreign policy under the League of Nations’ Mandate** by British foreign secretary **Arthur James Balfour** and **Lionel Walter Rothschild,** 2<sup>nd</sup> Baron Rothschild (of Tring), a leader of British Jewry—*ultimately* contributing to the **establishment of communism on the world stage** by the end of World War II, *particularly in North America (Canada and the United States), and South America (Argentina and Brazil),* and facilitating the on-going, *seemingly* never-ending **ethnic cleansing of Palestinians...** and conflict throughout the Middle East.

In 1899 **Baron Edmond James de Rothschild** transferred title to his colonies (“*moshavot*”) in **Ottoman Palestine** along with fifteen million francs to the JCA. The Palestine operation was restructured by Baron de Rothschild in 1924 as the **Palestine Jewish Colonization Association (PICA)** and placed under the directorship of his son **James Armand de Rothschild.**

Today it’s business as usual for the descendants of the Sassoon and Rothschild families... who socialize with Queen Elizabeth II and Prince Charles —as **elite members of Britain’s inner power circle;** many have been granted royal titles like Sir, Countess, Baron and Marquis—but their many victims aren’t fooled by the crowns the titles—and for their garments they have very different titles **for together they are the Beast of Revelations upon which the harlot in scarlet sits—Mystery Babylon—full of names of blasphemy, having seven heads and ten horns**—worshipped by liars, thieves, dope dealers and mass murderers.

Note: After the short reign of **Pope Benedict XVI** (the 7<sup>th</sup> head), Satan will masquerade as the returned Christ, and persecute the true commandment-keeping **Church Triumphant of God.** We are about to see this happen. How long will Satan have for this? Daniel and Apocalypse tells us: “a time, and times, and half a time.” [Mark: The scarlet-coloured Apocalyptic Beast should not be likened unto the sorts of neither the God-damned Golden Calf Moloch nor the Goat of Mendes.]

and Abigail Warner, founder of **Russell & Co.**, the largest outlaw American trading house of the mid-19<sup>th</sup> century at Guangzhou (Canton).<sup>7</sup>

Russell’s cousin, **William Huntington Russell**, co-found the **Skull and Bones 322 secret society** at **Yale University**—along with **Alphonso Taft**,<sup>8</sup> Secretary of War (during the **Great Sioux War**) under **President Ulysses S. Grant**. The **Russell Trust Association**, administer of **322’s business affairs**, was co-found by **Daniel Coit Gilman**:\* (Social organizations connected to the Russell Trust network include **Deer Island Club**—*within the Saint Lawrence River, between mainland Canada and United States—which operates as a corporation*). WH Russell strongly held that **African Americans must not be denied the right to vote through intimidation and violence**. Taft’s **pro-Jewish affinities** were exposed by his **support of Jewish groups opposed to the reading of the Bible in public schools**, arguing *that* as taxpayers, Jews also had the right to take advantage of a public secular education, and **religion was a matter of the home** and protected by the **Bill of Rights—undermining Christian values and moral ethics in the pioneer families of the larger metropolises, for Judaism is a disease of the psycho-spiritual body of Christ Church Triumphant in opposition of the worldly Church Magnificent; furthermore, suggesting the Bill of Rights only reflected Protestant values, and was therefore inappropriate as liberty was give to all religious denominations... and Christianity was not to be regarded as sectarian under the constitution**.

The diabolical **Skull and Bones “Brotherhood of Death” secret society** was founded by self-styled “Illuminated” ones with drug money; its exclusive members have been financed into political power positions in the CIA, the US Supreme Court and the White House since conception. Today, many of the evil **doctrines spread by the Illuminati** are taught as “truth” in universities across America and Europe and around the world, such as the idea that “private property rights should be abolished” or the idea that “religion is a crutch for the ignorant masses”; in fact, these Bolsheviks do not deny their **murderous hatred for Christianity... nor the pinko’s willingness to resort to absolute savagery**—exemplified by the spread of the Zio-communist gulag-state (viz., **post-colonial neo-progressive Cultural Marxism thinly disguised as the Frankfurt School and Fabian Socialism**)—as part of an ongoing academic and intellectual effort to undermine and destroy traditional Western culture and heritage by empowering “politically correct” feminists, homosexuals, secular humanists, multiculturalists, environmentalists, Third World immigrants incapable of integrating with our native culture, and Black nationalists (i.e., terrorists) and even sex offenders.

When **Skull and Bonesman William J. Casey**, a member of the **Knights of Malta** (q.v.), became CIA director in the 1980s, the CIA recruited **Osama bin Laden** to train **al-Qaeda and Mujahideen fighters** to fight the Russian Communists... and to run **Afghanistan’s multibillion-dollar opium trade—heroin**

<sup>7</sup> **Samuel Russell**—one-time employer of **Warren Delano grandfather of FDR**—was a land speculator, colonizer, and trader of Chinese silks and teas and Turkish opium. In 1830, Russell & Co. was merged with **J & T H Perkins of Boston**, established in Canton in 1806 by **John Perkins Cushing nephew of Thomas Handasyd Perkins, Haitian slave trader, opium smuggler and owner of Granite Railway—one of the first railroads in the United States**. Cushing was the **most influential of all the foreigners in Canton**, having a close relationship with **Wu Bingjian**, better known in the West as **Howqua—once the richest man in the world**. J & T H Perkins was thence being led by another two nephews, brothers **Robert Bennet Forbes** and **John Murray Forbes**: (The Forbes family was associated with other **ruthless robber barons of the Gilded Age**, such as Jay Gould and EH Harriman).

<sup>8</sup> **William Howard Taft** (1857-1930) *son of Alphonso Taft*—a judge, ambassador, and War Secretary and Attorney General under **President Ulysses S. Grant**—was the **only American president to also sit on the Supreme Court**. He had attended a Unitarian church in Cincinnati across the street from the **Reform synagogue** headed by **Rabbi Isaac Mayer Wise**, America’s leading Reform rabbi, which established the **Union of American Hebrew Congregations, Hebrew Union College**, and the **Central Conference of American Rabbis**—and was *both* impressed and inspired by **sermons delivered by Wise from the church pulpit...** the first time in the US that Christians shamed their triumphant churches allowing Jews to preach from their magnificent pulpits. The **Jewish population** increased dramatically during the **Taft presidency (1909-1913)** due to an **open policy on Jewish immigration** and **infiltration of Jews in both national and foreign affairs**; particularly with regard to the fate of their co-religionists in Russia and Russia’s violations of the **Russo-American Treaty of 1832**—a commercial pact.

“Many agitators, revolutionaries, and anarchists who were adherents of the Hebrew religion had emigrated to America during the recent troubles, and it was not to be expected that Russia should encourage the return of these elements.”

Russian Foreign Minister Sergey Sazonov

The issue became **a political flashpoint** when the **New York Times** (then owned by the Jew **Adolph Ochs**) fuelled **anti-immigration sentiment** and **anti-Semitism in America** by opining that “this is not a Jewish question, it is an American question” —and the **Literary Digest** asked: “When is an American not an American? When his religion doesn’t suit the Czar, evidently...” Meanwhile, **Zionist leaders** such as **Max Nordau**, manifesting the classic mindset of the “Ghetto Jew,” who, along with **Judge Mayer Sulzberger**, founder and first president of the **American Jewish Congress (AJC)**, and **Jacob Schiff**, met with Taft at the White House... *the first time an American president had invited a Jewish delegation to dine with him*. It wasn’t long until the AJC and its supporters began **“Jewish agitation”** inimical with the public interest. (Taft was awarded the **B’nai Brith gold medal** “in recognition of his service to the Jewish race,” and was the first president to speak in an American synagogue; more-so, one of his final official acts as president, earned Jewish gratitude for **vetoing the proposed Dillingham-Gardner immigration bill**, which contained an objectionable literacy test that was anathema to American Jews; Taft became the first president to meet formally with a delegation of rabbis, and remained **a staunch Zionist throughout his political career**. When **Henry Ford** published the **Protocols of the Elders of Zion** in his Dearborn Independent newspaper, Taft publicly labeled the Protocols a monumental fraud.)

*manufactured from Afghan opium supplied 250-to-300 billion dollars annually to Wall Street and US banks*. He served as the chairman of the **Securities and Exchange Commission** in the **Nixon-Ford administration**; after helping to broker **Ronald Reagan’s** unlikely alliance with vice-presidential nominee **George H. W. Bush**, Reagan named Casey to the post of **Director of Central Intelligence**; and, he had a financial interest in the **Iran-Contra affair** and **involvement with BCCI**—a multi-billion-dollar backdoor operation of global corruption: trafficking in drug shipments, smuggled gold, stolen military secrets, assassinations, bribery, extortion, covert intelligence operations, and weapons deals with a cadre of bank operatives, paramilitary units, spies, and enforcers who handled BCCI’s darkest operations around the globe. During his tenure, **post-Watergate and Church Committee restrictions** were controversially lifted on the use of the CIA to directly and covertly influence the internal and foreign affairs of countries relevant to American policy.

*A great civilization is not conquered from without until it has destroyed itself from within!*
